

Computer Network Management and IT Support Engineer Intern

6-month end-of-studies internship from May 2025

Syntony GNSS is a human-sized company with an international dimension, based in Toulouse and with the **FrenchTech label**, specializing in **Global Navigation Satellite Systems (GNSS)**.

Our ambition: To provide our customers with relevant, innovative, reliable and robust solutions.

World leaders in radio navigation and embedded systems, we are present in fast-growing markets, such as aeronautics, space, road and rail transport, mining and IoT (Internet of Things). We have developed a range of products (simulators, receivers, indoor/outdoor location systems) that meet the growing needs of these industries.

Keysight, Airbus, Airbus Constellation, Hitachi Rail, Thales Alenia Space, Honeywell, Rockwell, MDA, or the Stockholm, New York and Toronto metros... So many partners who trust us and push us to always go further.

With passion, we constantly evolve our solutions to anticipate their needs and perfect our know-how.

At Syntony, we offer a pleasant and stimulating work environment, where the quality of life at work and the availability of our employees promote fulfillment and collaboration. Intellectual stimulation is omnipresent through innovative and varied projects.

We work on a variety of subjects, ranging from aeronautics to space, transport, mining and the environment.

Thus, Syntony vibrates around three fundamental values:

Benevolence:

Together, we cultivate listening, respect and empathy in our interactions, while also valuing the multiculturalism that enriches our exchanges.

We contribute to a positive environment where everyone feels valued and supported. We enrich each other by building strong relationships, both internally and externally.

Excellence:

Together, we strive for excellence in everything we do. Through our commitment, our high standards and our sense of responsibility, we guarantee quality, efficiency and performance. It is through our collective rigour that we meet challenges and provide sustainable solutions.

Adaptability:

Together, we are flexible in the face of the changes around us.

By combining creativity, collaboration and resilience, we find innovative solutions and move forward efficiently. Our agility allows us to evolve in line with our environment.

From students to professionals qualified, help **develop future navigation solutions** in partnership with our **team of experts**. Evolve in a **caring environment** where your ideas take flight and your contributions strengthen the synergy of the company.

Internationally, we meet the challenges of today and tomorrow, supporting our customers throughout the entire process: from the initial vision to development, to delivery and the collection of their satisfaction.

The Context

You will join the IT team for a rich and varied internship during which you will carry out support missions with the teams but where you will also be required to participate in the implementation, administration and maintenance of the company's information systems under Windows and Linux. You will also participate in the

implementation of specific services managed by IT in the areas of applications, system administration and cybersecurity.

You will be part of a dynamic and friendly team, committed to offering its internal customers an efficient service that meets performance and security requirements in the utmost confidentiality.

What you'll accomplish with Syntony GNSS

Your main missions will be the following:

- Level 1 and 2 support for Syntony teams (management and maintenance of IT equipment (PCs, printers, peripherals, etc.); installation and configuration of software and hardware (onboarding, etc.), assistance to employees on office automation and application tools.
- Management of the employee base.
- Intervention on the server park.
- Infrastructure inventory.
- User account administration.
- Deployment of information systems.
- Work on Windows/Linux.
- Documentation of the tasks performed.

The technical skills we are looking for:

- Good command of Windows and office tools.
- Knowledge of Linux.
- Basic knowledge of networking and computer hardware.
- Basic knowledge of network security.

About you

- In preparation for a Bac +5 in computer science (IT and network support)
- Be autonomous and proactive, curious and resourceful
- You like to get your hands dirty and aren't afraid to dive into a PC!
- Reactive and loving the field but also able to take a step back to analyze, evaluate and make proposals for adaptation
- Good sense of service, communication skills, and team spirit
- Fluency in technical English.
