

Electronics Production Technician

Permanent contract based in Toulouse

Syntony GNSS is a human-sized company with an international dimension, based in Toulouse and labeled **FrenchTech**, specializing in **satellite navigation systems (GNSS)**. **Since our recent integration into the Safran Group, we have entered a new phase of growth that combines the agility and innovative spirit of an SME with the solidity and global reach of a major industrial leader.** Together, we are helping to shape the future of resilient PNT technologies.

Our ambition: To provide our customers with relevant, innovative, reliable and robust solutions.

World leaders in radio navigation and embedded systems, we are present in fast-growing markets, such as aeronautics, space, road and rail transport, mining and IoT (Internet of Things). We have developed a range of products (simulators, receivers, indoor/outdoor location systems) that meet the growing needs of these industries.

Airbus, Airbus Constellation, Hitachi Rail, Thales Alenia Space, Honeywell, Rockwell, MDA, or the Stockholm, New York and Toronto metros... So many partners who trust us and push us to always go further.

With passion, we constantly evolve our solutions to anticipate their needs and perfect our know-how.

At Syntony, we offer a pleasant and stimulating work environment, where the quality of life at work and the availability of our employees promote fulfillment and collaboration. Intellectual stimulation is omnipresent through innovative and varied projects.

We work on a variety of subjects, ranging from aeronautics to space, transport, mining and the environment.

Thus, Syntony vibrates around three fundamental values:

Benevolence:

Together, we cultivate listening, respect and empathy in our interactions, while also valuing the multiculturalism that enriches our exchanges.

We contribute to a positive environment where everyone feels valued and supported. We enrich each other by building strong relationships, both internally and externally.

Excellence:

Together, we strive for excellence in everything we do. Through our commitment, our high standards and our sense of responsibility, we guarantee quality, efficiency and performance. It is through our collective rigour that we meet challenges and provide sustainable solutions.

Adaptability:

Together, we are flexible in the face of the changes around us.

By combining creativity, collaboration and resilience, we find innovative solutions and move forward efficiently. Our agility allows us to evolve in line with our environment.

Join us and grow in a caring environment where your ideas take flight and your contributions strengthen the company's synergy.

The Context

As part of our recent integration into the **Safran Group**, our business is taking on a new dimension. Indeed, this integration allows us to significantly expand and enrich our product range, to accelerate our production ramp-up while benefiting from new synergies and development prospects.

What you'll accomplish with Syntony GNSS

Under the responsibility of the Production Manager, you will be responsible for the mass or custom manufacturing activities (assembly, assembly, testing) of the equipment marketed by the company. You will be in charge of 50% of the assembly of the equipment and 50% of its testing.

The missions that will be entrusted to you

Preparation of manufacturing according to the work and the production schedule:

- You study the work instructions, procedures and vouchers provided by the Production Manager
- You assemble the electrical and electronic hardware elements (components, wiring)
- You install the Firmware and Software programs

- You configure the equipment for acceptance testing
- You are in charge of the inputs and outputs of components of its production order

Ensure production

- You calibrate equipment in accordance with company procedures and reference signals
- You test the functionalities and put them to the test under the conditions of acceptance
- You configure the equipment for delivery
- You control the quality at the output of the equipment
- You complete the production follow-up documents and acknowledgement of the production
- You prepare deliveries (packaging, accessories, documents, palletizing, etc.)

Job retention

- You ensure the cleanliness and maintenance of your workstation and the professional resources at your disposal.
- You perform first-level maintenance
- You report any malfunctions and propose improvements

The key skills we are looking for

- Read and apply procedures, work orders
- Know the PC architecture, Linux environment
- Assembling electrical components and electronic boards in an industrial PC-like chassis
- Use power tools (drilling, etc.) and manual tools
- Master iron welding techniques
- Identify defects and promote diagnosis in the event of malfunction
- Complete production documents
- Handle sometimes heavy parts (gestures and postures)

About you

With a background in electronics, you have a first experience in the assembly of electronic boards in industrial PC type chassis. You are known for your dexterity, manual dexterity, observation and precision.

Do you appreciate versatility in your tasks and do you like teamwork? Apply and join a company that promotes innovation in the development of its unique products to design the products of tomorrow, dynamism and open-mindedness in listening to and respecting its customers and employees.

✦ What we offer:

- Benefit from the solidity and prospects of a large group like Safran, while evolving in a human-sized environment where your impact is real and visible.
- Joining a company where innovation, high standards and benevolence guide our projects and decisions.
- Grow in a learning and stimulating environment, alongside passionate teams, on various projects with an international dimension.

Ready to get on board with us? 🚀 ✦ Send us your CV and a short letter or a few lines about your motivation under the reference ENG-666-EN to jobs@syntony.fr or apply directly from [the career page of our website](#).
